EXPERIENCE

TRAFFIC ENGINEERING INTERN

Transtech Engineers – Chino, CA | July 2018 – Present

- Prepared diagrams to include in reports which show existing and proposed conditions as well as analysis of traffic counts and development projects.
- Completed technical reports of traffic related items/requests including traffic calming, traffic signal, crosswalk, school safety, curb markings, signage, and report formatting and documentation preparation for senior staff review.
- Involved in the preparation and data collection for funding grants such as ATP, HSIP and Metro Call for Projects.
- Gained familiarity with state manuals such as Highway Design Manual, California MUTCD and California Vehicle Code.

MATH TUTOR

Options for Youth - Fontana, CA | Feb 2017 – June 2017

- Planned & designed curriculum within scope & schedule and also meets state standards & specifications.
- Assist in planning, developing, monitoring & tracking student work schedule, progress and performance, and developing schedules and resource distribution based on needs of all units.
- Attend workplan development meetings with teachers, stakeholders, Principals and district's functional units.
- Communicate effectively with teachers to ensure tutoring is within scope & schedule, milestone dates and resource utilization are realistic, and ensure current work status.
- As a member of the Audit Team, ensure Option for Youth centers comply with state regulations and guidelines.

AVID TUTOR

Montclair High School - Montclair, CA | Aug 2013 – March 2016

- Conducted tutorial sessions for mastery in sciences, mathematics, study and other skills for college preparation.
- Decomposed terminal objectives into enabling objectives, then to lesson plans for curriculum planning, similar to WBS.
- Communicated regularly with AVID coordinators & stakeholders, provided status reports; Considered stakeholder feedback to continuously improve tutoring project delivery for student success.
- As part of Community engagement, prepared 40 + students, for midterms in sciences and mathematics. Motivated and instilled enthusiasm for learning and high test performance.
